

A photograph of a modern building's exterior featuring a row of large, white, rectangular fiberglass planters. Each planter contains a different type of greenery, including a large, rounded tree and several smaller, bushy shrubs. The planters are arranged in a line along a paved walkway. The building has large glass windows that reflect the surrounding environment. The overall aesthetic is clean and contemporary.

Jay Scotts

Luxury Fiberglass Planters

Luxury Fiberglass Planters

Jay Scotts Company is proud to be the world's leading fiberglass planter manufacturer.

Our company began in 2004 with a group of friends aiming to offer high-quality luxury products including permanent botanicals, decorative planters, and other accessories in a small chain of boutique shops in South Florida.

As the business grew, our focus shifted from sales to design and installation of floral arrangements with permanent botanicals and live plants. As designers, and subsequent consumers of the materials required for installations, we were never really satisfied with the selection of planters available on the market.

In 2010, we embarked on our mission to develop the highest quality planter using lightweight, durable materials that would not only last a lifetime, but more importantly, embody the fashion standards of Milan.

Focusing exclusively on the manufacturing and distribution of our planters means all our attention is on ensuring our planters are the finest available. Our planters are made by skilled craftsmen and women using the highest quality materials in our state-of-the-art facilities delivering cutting-edge styles, designs, shapes, and finishes.

Why settle for less?

Jay Scotts collection of fiberglass planters are designed and manufactured in-house. As such, we manage the factory production schedule of our planters with you, our clients, in mind.

Keeping a broad and deep inventory, Jay Scotts planters are stocked in a primed state just waiting to come home to you. Our paint-to-order business model means you will always get the perfect shape, size, and color combination for your project.

RECTANGLES

Small enough to fit on a shelf, large enough to completely close off the rest of the world and surround yourself with nature. Our rectangular planter collection is so vast, you're sure to find the perfect fit.

There is no space or design scheme that these planters will not add a special flair to.

10” Wide Collection

Slender and sleek, our 10-inch-wide collection is perfect for narrow spaces. Offering two different heights (24 and 32 inches) in multiple lengths, this series is ideal when the form and function of a rectangle is desired, but space is limited.

12” Wide Collection

One of our newest additions is the 12-inch-wide collection with the opening snugly accommodating a 10” grow pot. This series offers three different heights (18, 24 and 32 inches) providing the opportunity to accomplish disparate design objectives. Each planter is available in multiple lengths and includes a corner piece option lending a hand to extraordinary design flexibility.

14” Wide Collection

Low and wide, the 14-inch collection is a natural choice for enclosing patios and defining walkways without sacrificing the view. These are small enough to create a flower bed, but large enough to accommodate a variety of bushes.

24" Wide Collection

Our boldest rectangular collection, the 24-inch-wide series is greatly expanded offering 5 different heights with 4 different lengths and corner units for each. The possibilities are limitless. This collection is well suited for large statement pieces, barriers, or housing a large variety of plants in one planter.

Modular / Linear

Modular designs consist of related, but not uniform, design elements. It can incorporate planters with different heights and similar depths for a clean linear, yet tiered, visual. Corner units can be used to create fluid turns or returns. Or styles can be completely mixed and matched for unique custom groupings. This collection highlights a sampling of planters that are easily combined to create functional space dividers or simply enhance and beautify your space.

ROUNDS

Offering a fresh take on an all-time favorite planter shape, round planters by Jay Scotts will grace any space with timeless class and elegance.

Modern tall round planters, traditional bowl planters, globe sphere planters, cylinder pots, or any oval, ribbed and unique designs that fit both indoor and outdoor decor.

Teardrop

Replicating nature's simple beauty, this collection features a reverse taper or teardrop shape. Broad and stable at the base and slimming toward the top this collection exemplifies elegance.

SQUARES

The symmetry of square cube planters, together with their hard lines, add a modern edge to both interior and exterior landscaping. Use large square planter boxes to accent your patio furniture, or smaller modern square planters to accentuate interior spaces!

Short Square Taper

These planters showcase sleek and simple lines, true classic square shapes that easily accentuate patios, porches, and balconies while providing an eye-catching focal point.

Planting Guide

Potting soil mixture should be used in any/all planters when planting. Potting soil is specially formulated for planter and container gardening. It consists of a mixture of soil, humus, and peat, but can vary from brand to brand. To ensure you are using the correct type of potting soil for your plant(s), check with a professional to determine the correct regional and plant specific soil to be used.

Planters installed outdoors must have drainage holes. During months when temperatures are at freezing or below, water remaining in the soil or planter will freeze and expand which may cause damage to the planter. We do not recommend drainage holes on interior installations.

Our planters are designed to be used without saucers and have feet to allow for water drainage in outdoor applications.

Best Practices

Direct Planting:

1. Insert a layer of landscape fabric.
2. Add a layer of gravel.
 - a. **Best practices:** rinse the sediment off the gravel prior to installing.
3. Insert another layer of landscape fabric.
4. **Optional:** use foam to build up the pot to desired height.
 - a. For commercial installations, higher altitudes, and roof decks – consider adding more rocks (like lava rock), instead of foam, to achieve desired plant height.
5. Once desired height is achieved, insert a drop tray.
 - a. **Best practices:** a grow bag can be used instead of a nursery pot. Grow bags should be the same gallon size as the nursery pot. This ensures no unnecessary air gets in the soil and roots and reduces dirty run-off and staining.
6. Once in place, use filler around the nursery pot/grow bag to stabilize your plant(s) in place.
 - a. **Best practices:** we recommend rubber mulch.
7. **Optional:** top with river rock, moss or other decorative plant finisher.

Inserting Pots:

Internal shelves are available for some planters, speak with your customer service representative for your specific planter choices. Where available, shelves can be inserted in your planter on built-in support ledges. This enables easy placement, or replacement, of nursery and grow pots for discerning customers who love seasonal variety and change.

Want to dress it up further, use optional lightweight filler surrounding nursery pot once placed on ledge, and finish with decorative accessories like moss, or pea gravel.

*The shelves are intended to hold nursery pots, not be directly planted into.

Caring For Your Planter

Your planters are finished with an automotive paint that offers many advantages including UV resistance and can withstand extreme conditions. While our top coat paint used is very durable, storing planters in wet or steamy cartons or standing water can cause damage to the finish. Normal use allowing water to immediately drain off the finish after installation will not cause any harm.

Cleaning

Jay Scotts Fiberglass Planters require very little maintenance to keep their beauty. All planters, regardless of glossy or matte finishes, can be cleaned with normal household cleaning products. We recommend dishwashing soap and avoiding the following: solutions that contain bleach, power washing, steel wool or other abrasives that may scratch your planter.

Polish

Your fiberglass planter surface is comparable to a boat or car. On gloss finishes, polishing with an automotive or marine wax annually will enhance the look of your planter and will help protect the surface, especially in extreme weather climates. We do not recommend wax products on matte finishes unless specifically formulated.

Maintenance

Mild scuff marks and scratches on glossy finishes can often be buffed out. We offer touch up paint kits for nicks and scratches.

Questions?

Please call 954-922-3939 or email us at:
info@jayscotts.com

Terms and Conditions

Customer satisfaction is our priority. Our team is committed to better understanding your needs and working to exceed your expectations for quality, service and timely delivery.

Payment

- ☛ Jay Scotts does not offer terms. All orders must be paid in full at the time the order is confirmed.
- ☛ Payment methods include: Visa, Mastercard, American Express, Discover Card, check or electronic checks (e-check) with a signed authorization. E-check orders include a 1.5% discount on products.
- ☛ Jay Scotts offers 20 standard color options. Custom color application is available. Custom color fees may apply and are non-refundable. Please contact our office for additional information.
- ☛ Returned checks will incur the maximum processing fee as allowed by law.

Orders

- ☛ Orders are confirmed and processed upon payment. Payment reserves inventory for your order and items are placed in prep and paint/finishing queue.
- ☛ A sales confirmation will be sent upon receipt of payment. Customers must review all details including color selection, quantity, bill to and delivery address and request for drainage holes.
- ☛ Ship dates are noted on your sales order confirmation and indicates the day your item will ship, be ready for pick up, and or delivered by Jay Scotts.
- ☛ Shipping date is based on current lead time and is dependent upon items passing quality control.
- ☛ Changes to existing orders - including, but not limited to, quantity, color or planter style - must be made in writing to info@jayscotts.com.

Backorders

- ☛ Backordered items include an estimated time of arrival (ETA) line on the sales order. The date in this line item is when the inventory is expected to arrive.
- ☛ Backorders will be filled within 7-21 days of the arrival date of a shipment.
- ☛ Backorders will be shipped as available.

Custom Planter Orders

- ☛ Are subject to a minimum quantity.
- ☛ Are subject to a product development design/mold fee.
- ☛ Custom designs are the property of Jay Scotts unless otherwise agreed to in writing.

Shipping

- ☛ Orders ship from Dania Beach, FL unless otherwise noted. Please note our team will make every effort to ship your order from the closest distribution center to minimize freight costs.
- ☛ Standard orders are curbside delivery only. Additional services such as residential delivery, appointments or other requests may require additional fees or surcharges.

Missing or Damaged Items

- ☛ Inspect your shipment for signs of obvious damage. You may refuse the shipment should you receive it not intact or damaged. If you choose to accept the shipment from the carrier, make a note on the BOL (bill of lading) of any damage to the boxes, planter(s), or packing material. You are entitled to open each box and inspect the goods. If the driver will not stay, make a note that you were unable to check for concealed damage.
- ☛ Damage details and images must be reported in writing immediately to customer service at info@jayscotts.com. Photos should include the damage, cartons, and packing materials.
- ☛ If damages are not noted at the time of delivery, Jay Scotts will not have recourse and will be unable to compensate you or resolve this issue on your behalf.

Return Policy

- ☛ Returns are acceptable within 14 days of receipt and no product may be returned to Jay Scotts without written consent.
- ☛ Unauthorized returns will not be eligible for credit.
- ☛ Returns must be in the original box with all the packaging material.
- ☛ In some cases, customers may be assessed the original shipping cost and are responsible for pre-paid return shipping.
- ☛ Custom planters and planters with drainage holes are non-refundable and non-exchangeable.
- ☛ Credit for returns is subject to inspection of the product and packaging material.
- ☛ Authorized returns may subject up to a 30% restocking fee, the remaining balance will be issued in the form of a merchandise credit.

Shipping

We make every attempt to secure the lowest possible freight rate for customers which may include drop shipping from a distributor closer to our customers.

Ground/Parcel

Orders may qualify to ship by ground/parcel. We use FedEx Ground for delivery. A tracking or PRO number (another type of tracking number) will be sent to you when the order has been picked up from our warehouse so you may follow the delivery of your order. Please note, the tracking numbers may not be immediately available in the carrier's system, please give 24 hours from our notification to begin tracking.

Freight

A freight shipment is anything too large or too heavy for a ground shipment. Freight shipments are always wrapped and strapped on a pallet. Pallets are loaded up onto a freight truck at our warehouse with a forklift. These types of shipments require a loading dock, forklift or another method of removing pallets from the truck at the delivery site.

Transit

Carriers generally provide reliable transit days; however, some transit times may vary due to order volume, weather congestion or other unforeseen circumstances.

Paperwork/Tracking

A Bill of Lading (BOL) is a detailed list of goods consigning the shipment to the carrier from Jay Scotts. This document is issued by the carrier and kept with the driver to present to you when your order is delivered. A BOL tracking number (also called a PRO number) is provided to Jay Scotts when the order is picked up by the carrier but may not be available for tracking for up to 24 hours.

Delivery

Freight orders are typically delivered to a commercial address. Residential freight deliveries are subject to a surcharge and **require liftgate service**. Carriers are not movers and will not assist in the delivery. Additional services include a fee:

 **Liftgate:** A liftgate allows freight to be lowered to the ground from the truck's tailgate and is considered a special service.

 **Appointment:** Most carriers offer a window for delivery that may be up to 4 hours.

Warranty

Jay Scotts Company stands by the quality of our fiberglass planters.

Each planter holds a three (3) year warranty from the time of acceptance of the product.

We warrant the initial purchaser of our products that they are of quality material and workmanship, and are free of manufacturing defects.

Jay Scotts Company, at their sole discretion, will repair, exchange or give credit for the original purchase price of any item providing to be of defective materials or workmanship.

Mishandling, misuse, abuse, failure to follow directions for use, unauthorized modifications, neglect, accidents or any other hazard to the product voids the three year warranty.

Your planters are finished with an automotive paint that offers many advantages including UV resistance and can withstand extreme conditions. While our top coat paint used is very durable, storing planters in wet or steamy cartons or standing water can cause damage to the finish. Normal use allowing water to immediately drain off the finish after installation will not cause any harm.

Each order confirmation comes with handling and planting instructions to ensure the longevity of your planter. It is highly encouraged to follow these instructions for the best use of Jay Scotts planters.

Please note that is the responsibility of the purchaser to ensure that water be able to drain sufficiently from the containers with outdoor use. This is notably important in regions that are subjected to freezing conditions.

Please note that Jay Scotts Company will not be liable for labor, shipping, delivery or any other costs associated with a claim.

Our Customers

Our priorities are the satisfaction of our customer interaction, and the quality of our products and services. We feel our customers should not have to settle, so we go the extra mile before, during and after the sale. This is the Jay Scotts difference.

OUR GOAL IS TO CREATE A MEMORABLE JAY SCOTTS EXPERIENCE.

Jay Scotts wants you to be completely satisfied. We are committed to learning about your needs and providing quick and efficient action with timely communications.

Testimonials:

Lisa: “I love everything about my planter, the rich color, the durability, and, actually I’m going to buy two more shortly. That says it all. They’re worth every penny and so nice that you drill the holes, because I hate doing that myself!”

William Owen: “Great products in an ample selection of styles, sizes and colors. You are my go-to company for planters. Keep up the good work.”

J. Mark White (Gardenwise): “I find your staff very responsive and very helpful. We almost exclusively use Jay Scott when we are looking for outdoor containers.”

Stephanie (Integrated Landscapes): “Thank you for producing a beautiful product that has great quality!”

Gail (800 Plant IT): “Your product is beautiful for permanent interior plant installations.”

Space as Art: “Terrific Planters!”

Myrna (Ambius): “Great product quality, amazing customer service, quick turn-around for quotes and delivery of products. Not a single complaint on my side. Thank you all!”
